

Groupama Asset Management wins the Eurofonds – FundClass award again

On 9 March, for the fourth consecutive year Groupama Asset Management won the Eurofonds FundClass Grand Prix.

This year, Groupama Asset Management was again ranked as the leading French and European management company in its class*. This track record demonstrates and rewards the consistent performances of the company's range of funds graded by FundClass.

These long-term performances are due to the work of the financial and extra-financial research teams, dynamic allocation of assets, decisive stock and sector picking and responsible management.

The "Eurofonds-FundClass management companies" prize specifically rewards asset managers that have proven capable of delivering an outperformance whatever the market conditions. In fact, the Grand Prix Methodology takes into account all possible market conditions and different trend reversals over a four-year period.

* Category "41 to 70 rated funds", comprising 21 companies at 31 December 2009.
